

# Industrial Compact Flash card 4GB

## Description

The Delock 4GB CF Card memory module is among other features ideal for usage under rough environmental circumstances and for the application in computers, Set-Top boxes and other devices in industry. A safe data transfer is provided by the integrated Error Correction Code (ECC). Power-save mode and automatical shut-down enhance the energy efficiency.

Art. 54200

EAN 4043619542000

## Specification

- Storage capacity 4GB
- 50pin Compact Flash interface
- Operating voltage 3.3V or 5V
- Operating temperature: -40°C to +85°C
- Endurance 2.000.000 Program / Erase cycles
- Static wear leveling
- Auto Sleep & Power-Down mode
- Integrated ECC function for high reliability of data transfer rate
- PIO Modus 0-6, MWDMA Modus 0-4, UDMA Modus 0-4
- 40MB/s Read, 20MB/s Write
- Power consumption max. 150mA
- Burst Transfer Rate: 66,6MB/sek.
- MTBF : > 3.000.000 Std.
- Master and Slave switch
- Vibration: 5G ( 7~200Hz)
- Shock: 50G/10ms
- Size: 42,8 x 36,4 x 3,3mm (WxLxH)

### Package content

- 4GB CF Card

### Package

- antistatic cover
